

ParKay

Reversible for alternative textures:
exposed aggregate or smooth
surfaces.

Product features

Parkay elegance

- Warm, subtle, body-through colours including multiblend options
- A texture that blends naturally with the environment
- Non-slippery when wet
- Exciting and interesting shapes and designs can be created.

Parkay precision

- Strong and durable. Manufactured from quality materials
- Light, easy to handle and install
- No cement grouting needed
- Reversible for alternative textures: exposed aggregate or smooth surfaces.

Parkay versatility

- Driveways, walkways, borders, wall cladding.

Please note

- **Plate compacting with rubber mat only**
- **When laying in herringbone pattern, a 45 degree angle to the kerb is recommended.**

Coverage

Approximately 80 blocks per m².
